DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 12-13 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 2, 10 of co-pending Application No. 10/692,896 (Notice of Allowance mailed on 09 July 2007). Although the conflicting claims are not identical, they are not patentably distinct from each other because the subject matter claimed is the instant application is fully disclosed in the co-pending application. Claim 1 of the copending application discloses all limitations of claim 12 of the instant application as follows: Claim 12 of the instant application discloses a symbol arranger (disclosed in lines 3-5 of claim 1 of the co-pending application), a channel estimator (lines 6-7 of claim 1 of the co-pending application),

Art Unit: 2611

first and second decoders (disclosed in lines 8-13 of claim 1 of the co-pending application, a parallel-to-serial converter (disclosed in lines 14-15 of claim 1 of the co-pending application. Claim 2 of the co-pending application discloses number of transmitter antenna is 3" as disclosed in line 4 of the instant application.

As per claim 13, claim 13 of the instant application discloses a symbol generator (disclosed in lines 3-4 of claim 10 of the co-pending application), a phase rotator (disclosed in lines 5-6 of the claim 10 of the co-pending application), a metric calculator (disclosed in lines 12-14 of claim 10 of the co-pending application), a detector (disclosed in lines 15-16 of claim 10 of the co-pending application).

Allowable Subject Matter

3. Claims 1-2, 4-11, 16-20 are allowed.
4. Claims 12-13 would allowable if the rejection(s) of Double Patenting is overcome by filing a Terminal Disclaimer.
5. Claims 14-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Art Unit: 2611

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
